

# CONTRACT OF USE

## Bean Bags

Hardy outdoor bean bags have been purchased by Curtin University Properties, Development & Facilities for use in place activation activities around the campus, including Curtin Outdoor Community Cinema.

These outdoor bean bags are assets of Curtin and as a specialist, industrial strength product are expensive to replace, (\*approx. \$430.00 per bean bag).

The bean bags are also attractive items that are vulnerable to damage and theft, so the responsibility for their proper care – especially ensuring that they are properly secured/locked away at night or when not in use – falls to who has carriage of them for that event / or regular area (i.e. who signs this contract).

In the event that a bean bag is damaged or stolen as a direct result of event behaviour or not having been properly secured/locked away after use, then the signatory here in charge of that event / or regular area may find their area charged for the replacement of that asset(s).

I understand and agree to the contract of use for using the bean bags for my event / area:

I am taking carriage of \_\_\_\_\_ number of bean bags.
